Titusville, FL (Orlando), October 28-29, 2006

Combative Pistol II

Reno, NV, October 7-8, 2006

Hinton, OK, January 27-28, 2007 (indoors)

Three-Day Dynamic Marksmanship Course

Saturday-Monday, January 13-15, 2007, at Rangemaster

On August 4-6, 2006, Rangemaster conducted our annual Three-Day Firearms Instructor Development & Certification Course. Twenty students attended from all over, with students from all over Tennessee and Arkansas, plus one from Tokyo. We had a very good group this year, and the entire class successfully completed the program, becoming State Certified Handgun Instructors. The next such class will be in August, 2007.

Mastering the Defensive Snub Revolver

As profiled Combat Handguns, Guns & Weapons for Law Enforcement, and S.W.A.T. magazine. Northeastern Tactical Schools Mastering the Defensive Snub Revolver teaches you how to exploit the snubby's every tactical advantage. Class includes:

- 25 reasons the snubby beats the semi-auto
- Practical features for the self-defense snubby
- Ammunition for the self-defense snubby
- Gunsmithing options - pros and cons
- Aftermarket snubby safeties
- Best snubby concealment holsters
- Snubby handling skills, carries and draws
- Advanced administrative loading
- Partial loading (Newhall) tricks and tactics
- Practical speedloader tactics
- Putting speed into speedstrips
- Stuck cylinder and squib round clearing drills
- Case-under-the-ejector clearing drills
- Non-dominant-hand-only clearing and reloading
- Five feet to fifty yard shooting
- English, Arizona and Kenik shooting drills
- Contact shooting
- Safely shooting through pockets
- Snubby and tactical light handling
- Snubby specific weapon retention
- Snubby as emergency impact weapon
- Snubby specific gunfight strategy
- Conclusions

This class is perfect for the lawfully armed individual who is currently carrying a short barrel, self-defense revolver. Shooters of all skill levels are welcome. Class size is limited. A valid license to carry, a Federal Firearms License, or letter of reference from a practicing attorney is required to attend.

- Location:** Rangemaster in Memphis, TN
- Dates:** Sunday - December 3, 2006
- Time:** 9:00 a.m. to 4:30 p.m.
- Tuition:** \$180 - A 50% tuition deposit is required in advance.

EDGED WEAPONS OVERVIEW

Almost everyone carries a folding knife, but very few have any idea how to use one for self defense. In December we'll offer a course to correct this situation.

The Edged Weapons Overview course is a 16 hour focused overview of knife application methods that will give the student a fundamental and broad understanding of edged weapons. Like all ShivWorks courses EWO is contextually underscored and emphasizes conceptual framework applied through the minimalist, functional toolbox. All software is presented from the "reductionist's" point of view to maximize retention and maintenance efficiency. Topics to be covered in the course include:

Day One:

- ◆ The Criminal Assault Paradigm
- ◆ Managing Unknown Contacts
- ◆ Default Position and basic blows
- ◆ Tool Survey
- ◆ Robust Folder Deployment
- ◆ Theory of In-Fight Weapons Access
- ◆ In-Extremis application

Day Two:

- ◆ Mobility and Zoning Issues of equal initiative encounters
- ◆ Plyometric Fighting Platform
- ◆ Point Theory, forward and reverse grip
- ◆ Conventional Edge introduction
- ◆ Refining the narrow angle
- ◆ Reverse Edge introduction
- ◆ The Functional Support Hand
- ◆ Specialty and Improvised Edged tools (push daggers, icepicks, screwdrivers, etc.). This module is largely based on what students bring to the class and wish to see addressed.

Equipment Required: Comfortable clothes, wrap-around eye protection, mouthpiece and cup, preferred carry knives.

Equipment recommended: Any training knives, folding or fixed the student may have along with their standard everyday carry gear, such as holsters or magazine pouches. A "red" or "blue" dummy gun is acceptable but **NO LIVE FIREARMS ARE PERMITTED IN THE TRAINING ENVIRONMENT.**

ShivWorks courses are mildly anaerobic in nature and the student should come with the understanding that they will be subjected to mild to greater than mild impact as part of the coursework.

Conducted at Rangemaster, Memphis, on Saturday-Sunday, December 2-3, 2006. Cost is \$325.00. A deposit of \$100.00 will hold a space, balance is due 15 days before class. Call 901-370-5600 to register.

Facts to Ponder

Number of physicians in the U.S. = 700,000.

Accidental deaths of patients caused by doctors per year = 120,000

Accidental deaths per physician per year = 0.171

Statistics courtesy of U.S. Dept of Health & Human Services

Number of gun owners in the U.S. = 80,000,000

Number of accidental gun deaths, per year, all age groups included = 1,500

Number of accidental gun deaths per gun owner = 0.000188

Statistics courtesy of the FBI

So, statistically doctors are approximately 910 times more dangerous than gun owners. Please, write to your Congressmen and demand action. We must outlaw doctors! It's for the children!
